Regular Size 50 cents and \$1.00.

HATS OFF FOR THE FLAG.

Impressive Scene at Kansas City as the Stars and Stripes Passed a Regiment of Regulars.

The Third regiment, Missouri National guard, 350 strong left last night for St. Joseph, where it will go into camp of instruction for a week at Lake Contrary. When the citizen soldiers, clad in their new khaki uniforms and carrying rifles, knapsacks and blankets, marched across the Union depot to their train they passed through a crowd of 500 seasoned regulars of the Sixteenth infantry, recently returned from the Philippines. The regulars were also clad in khaki, but the uniforms were faded and the men were without arms. They were waiting for their train to take them to Atlanta, Ga. The regulars crowded up close to the files of the militiamen and gazed them good naturedly.

An impressive incident was then observed in the throng at the crowded depot. A large part of the regiment had gone through the depot. It halted by companies to allow the men ahead to clamber aboard the cars.

When about half were outside the color sergeant of the third regiment came from the waiting rooms and halted on the platform just outside the door. The Stars and Stripes floated in the breeze. Every regular in the group on either side the flag stopped his chaffing talk, took off his fatigue hat and rested it on his breast, at the same time bowing his head reverently.

As the colors passed down the line the same thing happened everywhere.

Every regular bared his head to his country's flag and bowed. Near the fifth track Colonel Charles C. Hood, a veteran of forty-one years in the service, and a group of his staff officers, were standing. They were laughing and chatting and passing compliments on the appearance of the militiamen, but when the flag went by them they stopped talking abruptly and Colonel Hood and every officer took off their hats and bowed their heads.

"It's the way we have been doing in the Philippines," said Colonel Hood when his attention was called to it, "and we have found that our example has been followed by the natives there. We have been educating them to respect the flag that protects them. What you have seen here is as natural to my men as it is for them to salute a superior officer or tip their hats to a woman"—Kansas City Star.

The Arab Mother's Advice.
When an Arab damsel gets married, her mother gives her the following advice for securing her future happiness:

"You are leaving your nest to live with a man with whose ways and habits you are unfamiliar. I advise you to become his slave if you wish to become the absolute mistress of your husband. Be satisfied with little, endeavor to feed him well and watch over his sleep, for hunger begets anger, and sleeplessness makes a man crossbrazed. Be dumb as to his secrets, do not appear gloomy when he is merry nor merry when he is sad, and Allah shall bless you."

Just Look at Her.

Whence came that sprightly step, faultless skin, rich, rosy complexion, smiling face. She looks good, feels good. Here's her secret. She uses Dr. King's New Life Pills. Result—all organs active, digestion good, no headaches, no chance for "blues." Try them yourself. Only 25c at all druggists.

To Clean Brass.

When cleaning brass, better results are obtained if the discolored articles are treated to an application of a salt and vinegar solution before the usual brass polish is used.

A Trip Across The Atlantic in a Kerosene Boat.

Mr. A. A. Low, a brother of the Mayor of New York city, has developed an invention of Mr. Feodor C. Hirsch, in which, by the novel method of injecting kerosene into a previously heated bulb, power is generated without water. In order to prove the great efficiency of an engine of this type, the New York Kerosene Oil Engine Company has built and equipped a 38-foot launch with a 10 horse power engine. On July 11 this launch started from College Point for Falmouth, England, by way of Sandy Hook.

By the time this paper reaches our readers the little launch may have reached its destination; for Capt. Newman and his sixteen-year-old son, who constitute the craft's entire crew, hope to reach England in about twenty days.—Scientific American.

Look Pleasant Please.

Photographer C. C. Harlan, of Eaton, O., can do so now, though for years he couldn't because he suffered untold agony from the worst form of indigestion. All physicians and medicines failed to help him till he tried Electric Bitters, which worked such wonders for him that he declares they are a godsend to sufferers from dyspepsia and stomach troubles. Unrivalled for diseases of the stomach, liver and kidneys, they build up and give new life to the whole system. Try them. Only 50c. Guaranteed by all druggists.

Cautions.

A little boy had come to school for the first time. The teacher, to encourage the children to speak, asked them simple questions, such as "How many feet have you?" etc. The cautious little man, however, listened without saying anything. At last the teacher, noticing this, said to him:

"How many feet did you say you had?"
Afraid of committing himself, he said, "Please, sir, I didna say I had any."—London Answers.

Get a free sample of Chamberlain's Stomach and Liver Tablets at A. E. Howell, Socorro; or Wm. Borrowdale, Magdalena, drug store. They are easier to take and more pleasant in effect than pills. Then their use is not followed by constipation as is often the case with pills. Regular size, 25c. per box.

The Curious Crowd.

"They're raising a safe into the tenth story next door."
"Yes?"
"Yes, and there are a lot of people down below who don't seem to realize that the safe side of the street is the side directly opposite to the safe's side."—Philadelphia Catholic Standard.

The Puma Winds.

The puma winds of the table lands of Peru, South America, are dry and parching, nothing similar being known outside of Africa or Persia. When they prevail, it is necessary to constantly wear a mask to protect the face.

OLD PEOPLE

Do not always receive the sympathy and attention which they deserve. Their ailments are regarded as purely imaginary, or natural and unavoidable at their time of life. Disease and infirmity should not always be associated with old age. The eye of the gray haired grandire may be as bright and the complexion as fair as any of his younger and more vigorous companions.

Good Blood is the secret of healthy old age, for it regulates and controls every part of the body, strengthens the nerves, makes the muscles elastic and supple, the bones strong and the flesh firm; but when this life fluid is polluted or poisoned and loses its nutritive, health sustaining elements, then there is a rapid decline of the vital powers, resulting in premature old age and disease. Any derangement of the blood quickly shows itself in an ulcer, sore, wart, tumor or some other troublesome growth upon the body, and rheumatic and neuralgic pains become almost constant, accompanied with poor digestion and cold extremities.

SSS S. S. S., being purely vegetable, is the safest and best blood purifier for old people. It does not shock or hurt the system like the strong mineral remedies, but gently and thoroughly cleanses the blood and stimulates the debilitated organs, when all bodily ailments disappear. S. S. S. is just such a tonic as old people need to improve a weak digestion and tone up the stomach. If there is any hereditary taint, or the remains of some disease contracted in early life, S. S. S. will search it out and remove every vestige of it from the system. Write us fully about your case and let our physicians advise and help you. This will cost you nothing, and we will mail free our book on blood and skin diseases.

THE SWIFT SPECIFIC COMPANY, Atlanta, Ga.

A Great Meteorite.

Prof. Henry A. Ward has announced the discovery of a great meteorite in western Mexico. The stone weighs over 50 tons; it is 13 feet and 1 inch in length, and lay buried by the terrific force of its own momentum nearly 20 feet in the earth. Small portions of the meteorite were broken off; the remainder was left intact for the time being. The cost of transporting the stone to the seacoast, 71 miles away, would have been more than \$50,000.—Scientific American.

Natural Soap Mine.

According to a report from Consul General Bittering at Montreal, a natural soap mine has been discovered in the foothills near Ashcroft, British Columbia. A company has been formed to work it, and already 275 tons have been taken out. The composition of the soap seems to be about one-fifth borax. It is said that there are 20,000 tons of the material in sight.—Scientific American.

Notice of Pendency of Suit.

In the District Court of the Fifth Judicial District of the Territory of New Mexico, within and for the County of Socorro.

Daniel H. Bailey, Plaintiff,
vs.
Elizabeth Jane May Bailey, Defendant.
No. 3397.

To Elizabeth Jane May Bailey, the defendant above named:
You are hereby notified that the above entitled action is now pending in the above named court, that the object of the same is to obtain a decree dissolving the bonds of matrimony existing between the said plaintiff and you, the said defendant, upon the ground of abandonment and desertion. Unless you enter your appearance in said cause on or before the twenty-ninth day of September, 1902, judgment by default and a decree pro confesso will be entered against you in said cause.

Arthur H. Harllee, whose postoffice address is Silver City, Grant county, New Mexico, is attorney for plaintiff in said cause.
(Seal) JOHN E. GRIFFITH, Clerk.
By M. J. TERRY, Deputy.
